Organizations (3 credits)

# Your Learning Journey

1

## Semester 1

Foundation in communication, writing, mathematics, and world religions

2

## Semester 2

History, ethics, arts, and Christian faith principles

3

## Semester 3

Digital technologies and social media for religious outreach

4

## Semester 4

Advanced multimedia production and web design mastery

# Career-Ready Skills

## Multimedia Production

Create compelling video, audio, and visual content that engages audiences and communicates faith effectively across digital platforms.

## Web Design

Design and maintain professional websites for religious organizations that serve as digital hubs for ministry and community engagement.

## Social Media Strategy

Develop and implement comprehensive social media campaigns that build community and extend religious outreach in the digital space.

## Digital Communication

Master the art of communicating religious messages through modern digital channels while maintaining theological integrity and authenticity.

# For Such a Time as This

*"And who knows but that you have come to your royal position for such a time as this?"*

**Esther 4:14**

The Associate of Science in Computer-Mediated Religious Communication prepares you to answer the call of ministry in the digital age. Combine your passion for faith with cutting-edge technology skills to reach people where they are—online.
