Week Classes

Accelerated course format options

First Year Foundation

Semester 1

- ENG 101 – English Composition I (3 credits)
- MAT 103 – College Algebra (3 credits)
- CIS 101 – Introduction to Information Technology (3 credits)
- POL 101 – Introduction to Global Politics (3 credits)
- REL 101 – Introduction to World Religions (3 credits)

Semester 2

- ENG 102 – English Composition II (3 credits)
- MAT 104 – Statistics for Political and Technological Studies (3 credits)
- CIS 104 – Technology and Society (3 credits)
- POL 102 – Comparative Politics (3 credits)
- REL 102 – Theology and Ethics in Global Politics and Technology (3 credits)

The first year establishes a strong foundation across all three pillars of the program: global politics, technology, and biblical insight. Students develop essential skills in writing, mathematics, and critical thinking while exploring the interconnections between these disciplines.

Second Year Development

Semester 3

- POL 201 – International Relations (3 credits)
- CIS 201 – Cybersecurity and Geopolitics (3 credits)
- REL 206 – Biblical Perspectives on Justice and Governance (3 credits)
- Elective Courses (6 credits)

Semester 4

- POL 202 – Political Economy (3 credits)
- CIS 209 – Technology Policy and Regulation (3 credits)
- REL 212 – Biblical Perspectives on Global Issues (3 credits)
- Elective Courses (6 credits)

Third Year Specialization

Semester 5

- POL 301 – Politics of Developing Nations (3 credits)
- CIS 308 – Data Analytics for Political Decision-Making (3 credits)
- REL 305 – Ethical Leadership in Politics and Technology (3 credits)
- Elective Courses (6 credits)

Semester 6

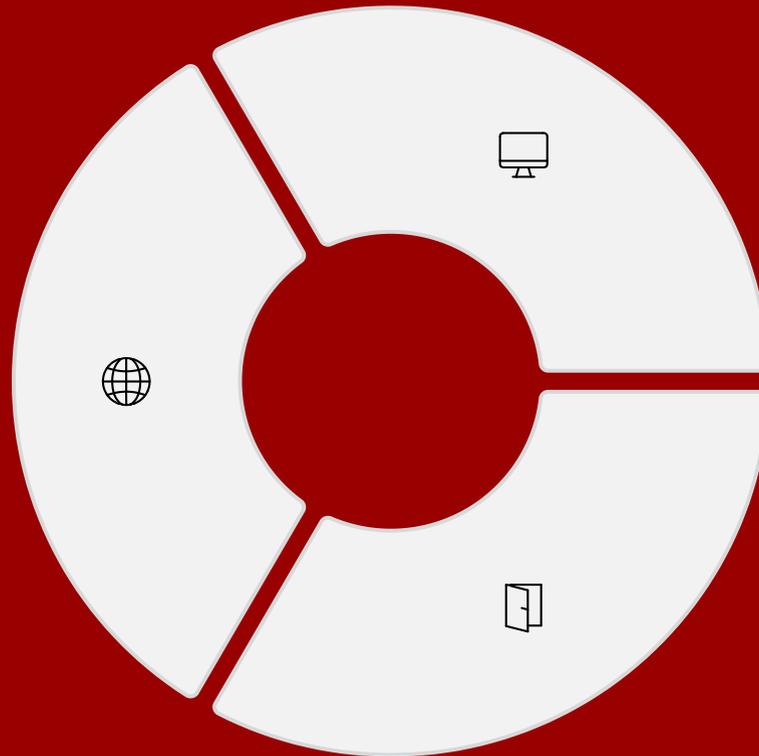

- POL 302 – Politics of Technology Innovation (3 credits)
- CIS 310 – Technology and Global Governance (3 credits)
- REL 325 – Interfaith Dialogue and Diplomacy (3 credits)
- Elective Courses (6 credits)

The third year focuses on advanced topics and specialization, allowing students to explore developing nations, data analytics, ethical leadership, and interfaith dialogue while building expertise in their chosen areas through elective courses.

Core Disciplines Integration

Global Politics

Understanding international relations, comparative politics, political economy, and the dynamics of developing nations in our interconnected world.

Technology

Exploring information technology, cybersecurity, data analytics, technology policy, and the role of innovation in global governance.

Biblical Insight

Integrating theological perspectives on ethics, justice, governance, global issues, and interfaith dialogue into political and technological contexts.

Technology and Politics Convergence

Cybersecurity

Understanding the geopolitical implications of digital security and protecting critical infrastructure in an interconnected world.

Data Analytics

Leveraging data-driven insights for informed political decision-making and policy development.

Policy & Regulation

Navigating the complex landscape of technology governance and regulatory frameworks.

The program uniquely positions students at the intersection of technology and politics, preparing them to address critical challenges in cybersecurity, data governance, and technology policy that shape our global future.

Biblical Perspectives on Leadership

"And who knows but that you have come to your royal position for such a time as this?"

Esther 4:14

Justice and Governance

Exploring biblical principles of justice, equity, and righteous governance in contemporary political systems.

Ethical Leadership

Developing moral frameworks for leadership in politics and technology grounded in biblical wisdom.

Interfaith Dialogue

Building bridges across religious traditions through diplomatic engagement and mutual understanding.

Career Pathways and Impact

International Relations

Pursue careers in diplomacy, international organizations, and global policy development.

Technology Policy

Shape the future of technology governance, regulation, and digital transformation initiatives.

Faith-Based Leadership

Lead organizations that integrate spiritual values with political and technological innovation.
